DR. MEAGLEY IS NO MORE

Death Relieved His Suffering Sunday Evening.—The Remains Taken to Ohio for Interment.

Dr. Frederick L. Meagley died Sunday evening at 8:45, after an illness covering a period of several years. He had been a sufferer from consumption for about six years. Thinking perhaps a milder climate would prolong his life, he came to Daytona four years ago and ever since has battled with the dread disease, prolonging his life much longer than most persons afflicted with consumption.

Dr. Meagley was born Jan. 15, 1868, making him nearly thirty-eight years of age at the time of his death. He was a very successful surgeon for many years, practicing in Ohio before coming to Daytona. Of late he has been confined to his bed most of the time.

Short but impressive services were held at his late Bay street home Tuesday, after which the casket was removed to the undertaking parlors of the Bingham & Maley Company where it remained until Thursday, when it was shipped to Findlay, Ohio, for interment. Rev. Dowlin, of the Methodist Episcopal church, conducted the services at the house, assisted by Rev. B. F. Marsh, Rev. Shoemaker and Rev. C. M. Bingham. Many sorrowing friends attended the services, as did the physicians of the city as a body.

Dr. Meagley leaves to mourn his demise a widow and son, to whom the Gazette-News joins their hosts of friends in extending condolence.

Mrs. Meagley and son, Martin, accompanied the remains Thursday, and in all probability will not return to Daytona.

NEW PASSENGER STATION

And New Postoffice Building Wanted for Daytona.—Board of Trade Appoints Improvement Committee

The Board of Trade held an interesting meeting at the Halifax River Yacht Club house Tuesday afternoon, and many important matters were discussed.

G. H. Clark suggested that if efforts were made through the proper channels he thought the government could be induced to erect a postoffice building in Daytona. The present postoffice building is inadequate to properly handle the increasing mail, and it seems impossible to rent a suitable building. After discussing the matter from all sides a committee consisting of J. A. Hendricks, S. H. Gove, Col. C. M. Bingham, T. E. Fitzgerald and Dr. H. H. Seelye were appointed to take up the matter with the various officials and endeavor to interest them in the project.

S. H. Gove, who always has his weather eye open for improvements, said he thought the Florida East Coast Railway company would erect a new passenger station in this city if they were approached on the matter. The same committee as above were instructed to take up the matter.

Waterworks and sewerage were next discussed. A resolution was introduced by Dr. H. H. Seelye as follows: "Resolved that the Board of Trade work with the city council in forwarding plans for the establishment of a system of waterworks and sewerage for the city of Daytona." The resolution passed with but one dissenting vote.

W. H. Edmondson, M. B. Aultman and Geo. H. Clark were appointed a committee on membership. Any person interested in the welfare of Daytona is eligible to membership, and the fee is but \$1.00 for initiation, with no dues. The following new members were elected at Tuesday's meeting: S. H. Gove, C. A. Steele, B. H. Williamson, H. B. Yarbrough, S. E. Bullard and Dr. H. H. Seelye.
